Your business and customers depend on the efficient operation of your pharmacy systems.

We take pride in providing dedicated support to resolve your pharmacy software and hardware challenges. Our support network is highly recognized nationwide as the most reliable in the pharmacy systems industry. The PTS Customer Care team takes ownership of your request and works as a team to support you by providing the necessary expertise. If required, they will coordinate field technician support to resolve issues on-site at your store.

Experience the difference our service makes.
